

BARBER TRUCKING *Inc.*

Veterans for Drivers

Barber Trucking...Driving for YOU

Barber Trucking is a military-friendly company valuing all employees, especially veterans and those who served our country.

“I’m Staff Sergeant Dan Johnson I have been serving in the United States National Guard for eight years. I am a heavy wheeled equipment operator (88 Mike) and a heavy wheeled operation mechanic (91 Bravo). Prior to finding Barber Trucking I was really getting discouraged on my recent job hunt, because I had multiple interviews and yet didn’t have a single offer. It seems that even companies who claimed to be military friendly weren’t what they seemed. There were a variety of reasons that I was denied related to me not having any civilian trucking experience.

Barber Trucking has truck driving jobs available and wants to hire you as the next Safe Flatbed Driver. If you are looking for a solid career to provide for yourself and family, you have come to the right place! We offer the best benefit and pay packages to our drivers and their families.

Then I found Barber Trucking. They really seemed to understand me, and the way my National Guard military skills and experience translated. I am now happy to be a valued member of their team. They have great integrity, honesty, loyalty, and have done everything they said they would do.”
