

Chemical Peels

Depending on the acid selection, these peels target hyperpigmentation, improve skin tone, increase radiance, diminish fine lines and wrinkles, exfoliate and decongest pores while hydrating skin, helps reduce the appearance of acne, and aids in the improvement of rough texture, blotchiness, and uneven skin tone.

Any bundle purchase MUST be paid up front, we will not do a payment plan for our bundle option. For optimal benefits, it is our recommendation to do a series of 6 peels spaced out by 4 weeks for the chemical peel of your choice.
