DuBois Area Celebrates Summer

Community Days

Held in DuBois City Park, DuBois Community Days offer fun for the entire family. This year, Community Days begins on Friday June 14th at 5:00 PM. The celebration continues through Saturday, June 15th with a Firemen's Parade at 5:00 PM and fireworks when darkness descends. Expect to experience terrifically fun games, a wide variety of food and live performances by musicians, magicians and other enchanting performance artists. You and your loved ones will be inspired to sing, dance, laugh and play. Best of all, Community Days is free to attend. Note that some food and merchandise are for sale, but vendors here are non-profit organizations raising money for good causes, so if you have money to spend, consider spending it here. If you don't, just come and enjoy.

Hosted by the DuBois Volunteer Fire Department to thank the community it serves, Community Days is *the* event of the DuBois summer season. Last year, more than 10,000 people traversed the festival, stopping at its more than 70 booths to share fun, food and conversation. Businesses who participate -- often so that they can be seen by a multitude of people -- pay a fee. Monies raised this year will be used to fund next year's event.

Brockway Old Fashioned Fourth of July Celebration

The Brockway Old Fashioned Fourth of July event celebrates its 47th year delighting visitors with entertainment, races, food, fun and of course, fireworks. Leading into the main event on the Fourth, other happenings that may be of interest to you and your family are available.

The Brockway Historical Museum opens its doors as early as June 27th at 1:00 PM for example, while the Cubscout cubmobile registration and race begin at 4:00 PM on Sunday, June 30th in the rear parking lot of St. Tobias Church. After that, expect to revel in the 35+ events scheduled for the Fourth, starting with the Firecracker 10K registration and race at 7:30 AM in the Pool area of Brockway Park. Events occur town-wide so be sure to be there early on the Fourth of July. You don't want to miss a moment!

9 TO 5: The Musical

With music and lyrics by Dolly Parton and based on the book by Patricia Resnick, Nine to Five at the The Reitz Theater brings the 1980 hit movie to the stage.

Pushed to the boiling point by their manager, three female co-workers concoct a plan to get even with their sexist, egotistical, lying, hypocritical, bigot boss. The women conspire to take control of the company and learn there's nothing they can't do - even in a man's world. Set in the late 1970s, 9 TO 5: THE MUSICAL is a hilarious story of friendship and revenge in the Rolodex era. Outrageous, thought-provoking, and even a little romantic, 9 TO 5: THE MUSICAL celebrates teaming up and taking care of business.

The Reitz Theater > June 21, 22, 27, 28, 29 at 7 pm, June 23 at 2 pm, 2013

“MUSIC is a higher revelation than all wisdom and philosophy.”

- Ludwig Von Beethoven

Music. Entertainment. Culture. These are essentials to any location and community, and DuBois is no different.

Whether you crave new and original music, want to hear some well-known favorites, or simply have the urge to dance, there are numerous establishments that provide all of the above on a regular basis.

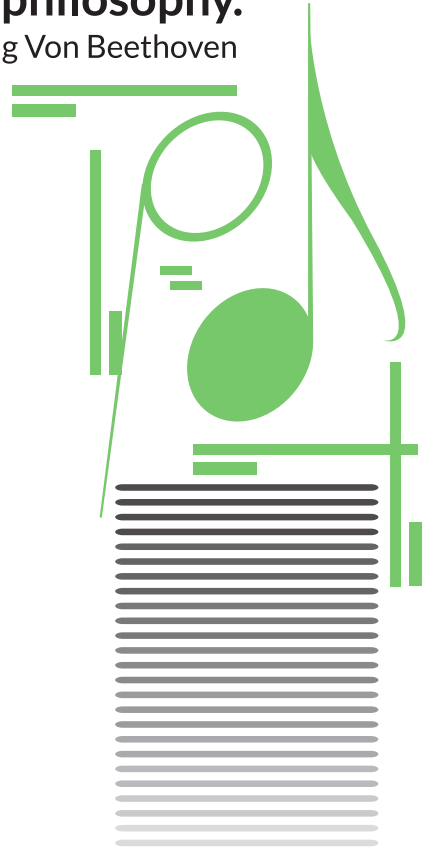

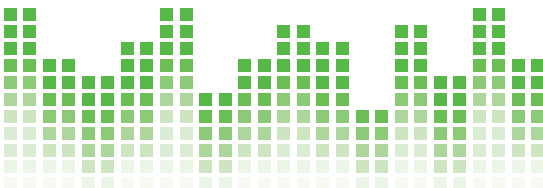

Catch a range of acts, spanning from big names to local favorites at some of these locations; while others on the list keep it close and personal, hosting open mic events and acoustic entertainment.

No matter what mood you're in, or what you're looking for, most establishments* within DuBois provide various forms of entertainment throughout each week; allowing you to relax, enjoy and get lost in the moment.

I think Friedrich Nietzsche put it best when he said, “Without music, life would be a mistake”.

So, whether it be an act at a local bar or tavern, or a full lineup at an underground venue, explore the music scene that DuBois, and it's surrounding areas, have to offer.

You might discover some fine talent.

Classic Zi Xiu Tang Bee Pollen reshapes the body. It focuses on the waist, abdomen, buttocks, and neck. It will make your body more symmetrical and toned using all natural Chinese herbs.

“Producing QUALITY and consumer oriented products” IS their mission.

BeeXtreme shedding the fat

- Greater feeling of general well-being

BeeXtreme is taking over our area in helping you shed the pounds. You may have heard of us from a friend or through our very popular Facebook page (1,260 likes). So we're here in the first edition of **DuBois Plus** to talk about what the heck this thing **BeeXtreme** is and how you lose weight just by taking our bee pollen pills!

How does it make me lose weight?

It's a product that uses a 3-part system to effectively lose weight and keep it off! No seriously, it does. It is a 100% Authentic Zi Xiu Tang Bee Pollen Capsule including natural ingredients such as Chinese Yam, Wolfberry Fruit, Dietary Fiber, Green Tea, Aloe are just some of the ingredients.

It's actually one of nature's healthiest and most powerful "super foods."

It's been used as a dietary supplement for thousands of years. Increase in energy, zest, and physical endurance. It is especially rich in B vitamins and antioxidants, vitamin C, vitamin E, and several flavonoids. Overall, it's one of the most nutritionally complete natural substances found on earth.

Not just for weight loss, also can fight disease

By increasing the body's healing power, the body can help build resistance to disease. Science shows that bee pollen has natural rejuvenating powers, aids beauty, boosts energy, extends life span, fights allergies, relieves digestive disorders, fights allergies, asthma, chronic rheumatism, colitis, arteriosclerosis, insomnia, depression, failing memory, hay fever, to normalize intestinal activity, to lower cholesterol levels and stimulate appetite, lower high blood pressure, offset the effects of drugs and pollutants, anaemic conditions and attention deficit. It maintains the high levels of energy required to keep up with hectic schedules, deadlines or long hours. Bee pollen is used as an immune system builder, has the ability to correct body chemistry and eliminate unhealthy conditions. Today, more than ten thousand tons of bee pollen is consumed as food or medicine all over the world every year!

How does BeeXtreme work?

First, the body stops and reverses fat absorption and then changes to fat burning, since it now believes it has too much. The second thing that happens is the increased fat burn rate also increases the metabolic levels of the body, making the metabolism go through the roof! Energy is no longer an issue! Some people notice an increased energy level after the first day of taking this product. By using this product you will benefit from the same effects as those who utilize the pH diet and run around finding all the right foods to fit the diets guidelines. All you have to do is take two pills in the morning with water, and go about your day!

One of Nature's Most Perfect Foods

There is an incredible history of cultures like the Greeks, Romans, pharaohs from Egypt, American Indians and tribes in China using bee pollen as a beneficial natural food supplement. In our modern times, scientists, gerontologists and nutritionists have rediscovered these bee-prepared foods and confirmed that they are able to promote benefits in the form of healing and rejuvenation.

You can buy BeeXtreme at many local stores and boutiques or directly from us at beextreme.webs.com and we offer home deliveries when possible!

“Art is a microscope which the artist fixes on the secrets of his soul, and shows to people these secrets which are common to all.”

- Leo Tolstoy

Art is honest. Art is real. Art is expression. It's an extension of one's deep emotional core, and it's everywhere surrounding us. It ranges from the functional piece sitting on our porches to the in-depth and extravagant pieces displayed for the masses attached to gallery walls.

Speaking of galleries, if you're a cultured fan of the visual arts and just happen to be in the DuBois, and/or surrounding areas, you're in luck.

Both DuBois and Clearfield are home to fine arts galleries. Winkler Gallery of Fine Art opened its doors to the public in 2003 and has a plethora of art to be enjoyed by both the newly infatuated and the experienced collector alike. They also have been teaching a multitude of classes including stained glass, silk painting, and watercolors.

New to Clearfield is the Market Street Studio and Gallery. Recently opening its doors to the public, the Studio and Gallery has a wide range of plans to not only display the works of Clearfield area artists, but to also teach and convey the artistic touch to those in search of further expressing themselves within multiple mediums.

So, whether you're merely interested in checking out what pieces are adorning the walls, or are in pursuit of acquiring skills within many facets of the arts, take time to stop by both Galleries and see what they have to offer you. Both are more than happy to meet your acquaintance.

Looking for supplies? Check out Peaceable Kingdom in downtown DuBois. A wide range of art supplies and prime examples of fine art are always on hand.

Going Wild

in West Central PA

For those of you who want to explore the wild side of Pennsylvania, there's no better place than West Central PA. DuBois+ did a little research and found the following recreation areas for you to explore. Take your friends and families on one-day or overnight adventures. After all, these are the days to remember:

Bilger's Rocks

What could be better than exploring the cracks and crevices of 300 million year-old rocks? Whether you're climbing, hiking the miles of trails that wind through the rocks, picnicking at the pavilion or watching children play on the recreational equipment, Bilger's Rocks is a must visit destination for both visitors to and residents of, West Central PA.

Curwensville Lake Recreation Area

Bring your friends and family, your barbeque and picnic food and the outdoor toys you most enjoy to Curwensville Lake Recreation Area. Whether you want to bike, hike, boat, fish, camp or all of the above, Curwensville offers a wide variety of recreational options. And because there are no horse power regulations on the lake, you can freely navigate the waters in search of fresh water fish.

Elk Viewing Center

For those local to the DuBois area, viewing Elk may not be such a big deal. If you're visiting the area however, consider adding Elk Country's premier Elk viewing venue. View the largest herd of Elk in the Northeast while learning more about these majestic animals in a multi-sensory 4-D theater. Viewing trails lead you through the Elk habitat while exhibits along the way teach you more about Elk behaviors across the seasons. At the end of the day, you'll feel closer to the Elk and know that you've been in the presence of greatness.

Janesville Dam/Mountz Memorial Park

If you enjoy a quiet lake and park with no motorized boating, this 10 acre park and lake offer a serene place to spend the day. Fishing is available to all, but especially to the handicapped, who sometimes miss out on the fun because of their disabilities. A playground for children of all ages is available as are tennis and basketball courts. You can also plan your indoor picnic or party here so that no matter the weather, your fun never ends.

Going Wild

in West Central PA

Parker Dam State Park

Parker Dam, located approximately nine miles off of Interstate 80's exit 111 offers exploration and adventure throughout the year. During Summer, hike the park's 17 miles of trails or swim in Parker Lake's cool waters. Autumn brings a fusion of color beautiful to behold while Winter offers cross country skiing or ice fishing. Come Spring, look forward to participating in the maple sugaring process. Rustic cabins are available throughout the year for those of you who want a roof, but sleeping under the stars is also an option should that be your dream.

Quehanna Wild Area

Quehanna's two State Forest natural areas – the Wykoff Run Natural Area (1215 acres) and the Marion Brooks Natural Area (917 acres) provide you with ample opportunity to hike, camp and fish in nature's loveliest spot. Covering parts of Cameron, Clearfield and Elk Counties, Quehanna is the largest state forest wild area in Pennsylvania. Here you'll see amazing flora and fauna, including herds of native Elk as they traverse a second growth forest of hardwoods and evergreens. Take a breath. Spend the day.

Rock Run Recreation Area

In rural northern Cambria and southern Clearfield Counties you'll find 70 miles of hiking, ATV, UTV and dirt bike trails that take you to the most beautiful Allegheny Mountain views found anywhere in the State. Bring your hiking boots, your dirt bike or your machine and experience everything that Pennsylvania nature has to offer. Oh, and bring your camera, too. You don't want to miss this.

Shagger's Inn

Shagger's Inn is an impounded wetland that supports wildlife not often seen elsewhere. Somewhat secluded in its locations, Shagger's Inn offers a peaceful place to canoe, kayak, fish and picnic. Waterfowl are present in the Spring and Fall, while white-tailed deer, black bears, beavers and wild turkeys can also be found here. Perhaps most exciting though, is that Shagger's Inn is one of the few remaining Pennsylvania nesting areas for the elusive wild Osprey.

Simon B. Elliot State Park

Like a fish with a bit of fight? If so, Simon B. Elliot State Park might be a destination of choice for you. Offering a combination of native and stocked trout that can only be found by hiking through the trails leading to the park's mountain streams, Simon B. (as it is affectionately called), is a fisherperson's delight.
